

Grad Engineer and Land Surveyor Program

Full-time engineering and surveying trainee program that provides practical work experience through formal rotations prior to placement in permanent work locations.

ENDLESS OPPORTUNITIES

visit www.mn.gov/careers to learn about all state job opportunities.

Seeds Student Worker Program

College-level, year-round student worker program. This program targets students in five categories: minorities, economically disadvantaged, disabled, recently separated veterans and women in STEM and nontraditional career fields.

MnROW Program

Provides full-time work experience for internal employees who are recent graduates entering the workforce.

Phoenix Internship Program

Internship program for high school students interested in STEM related careers.

Civil Engineering Internship Program

College-level summer internship program for civil engineering students.
